#### Army Family Action Plan (AFAP) Issue Paper

ISSUE: Vaccination Priority

SCOPE: Service Members and their Families do not have priority in receiving vaccinations. I see flyers stating that Service Members have the same priority as the general public in receiving vaccinations. This is a problem since Service Members are deployed to areas where disease is rampant, and they can bring disease home to their Families and community.

#### RECOMMENDATIONS:

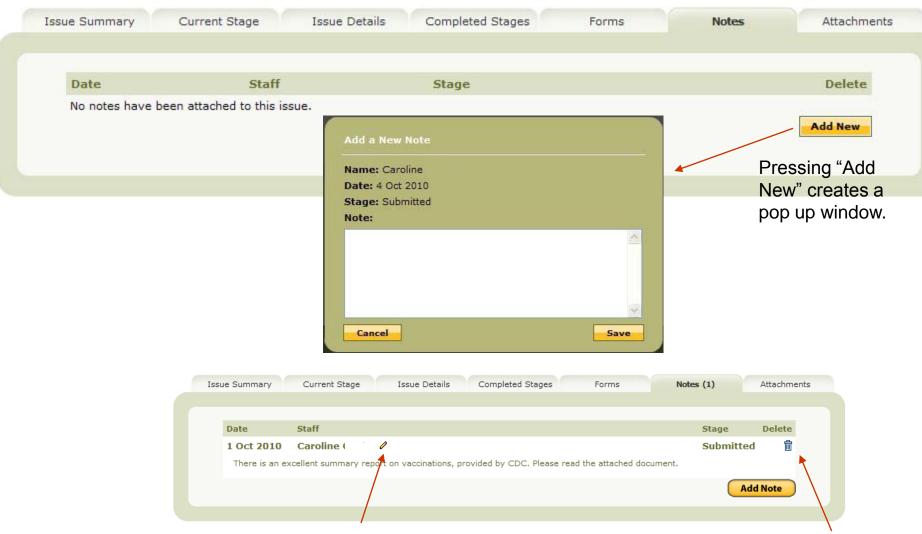

1. Give Service Members and their Families priority in receiving vaccinations.

- •To download a copy of the issue paper click on the "Issue Paper" link an Issue paper is generated for you
- •The Issue Paper will download as a Word document, allowing you to modify it.
